

Tour-Planner

Protocol

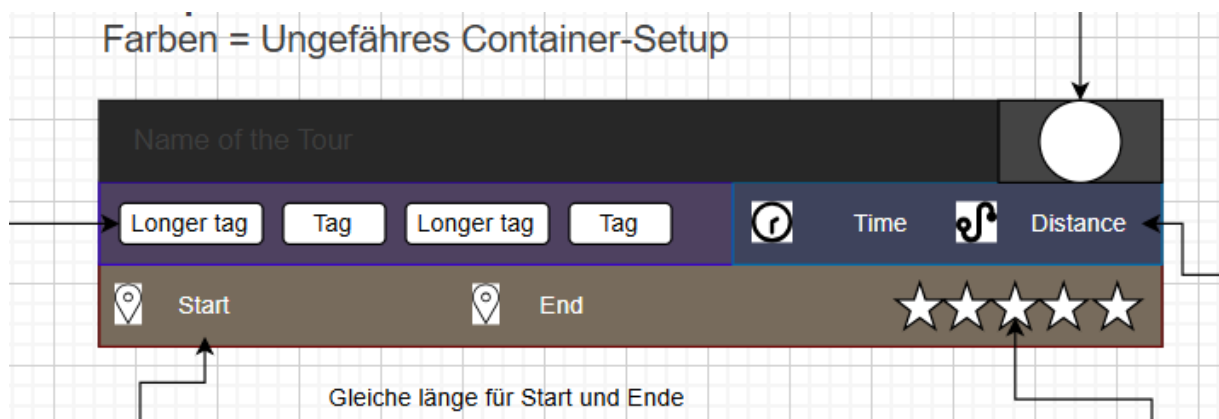

Wireframes

A header with a navbar including links to the most used pages is provided at the top. On the right, either a log in button or the account dropdown component is shown, which would then lead to further account related pages.

Wire_mogged.drawio

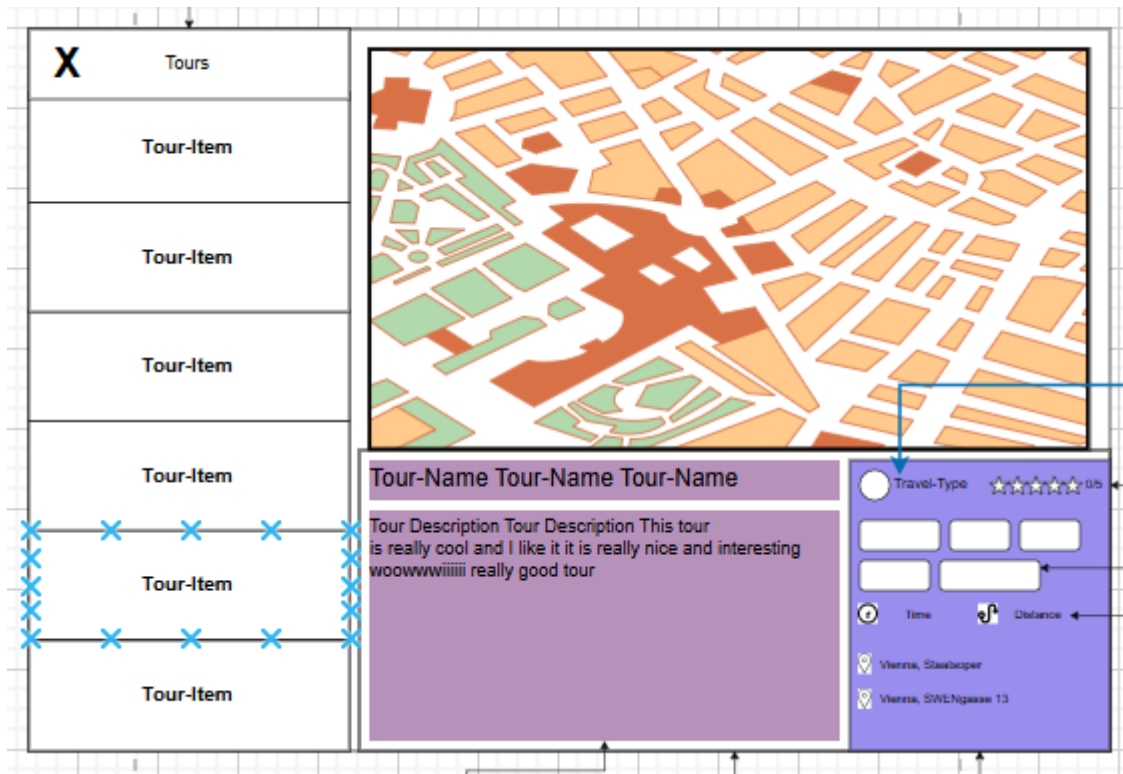

A sidebar opens on the left-hand side on the tours page, which is a list of all the tours one can see.

Tour_Short_Iter2.drawio

On selecting one of those tours, the full tour can be seen on the right side. (Explanation of the individual elements)

Tour_Full_Iter2.drawio

The create and edit tour pages orient their layouts similar to how the full tour view is set up.

Tour_Create_or_Edit.drawio

The create and edit tour log pages are based on a similar layout to the create and edit tour pages for the user to be familiar with the elements.
